

Request for an Alternative Contraceptive for Patients Covered Under a Colorado Health Benefit Plan

(other than self-funded ERISA coverage, Medicaid, Medicare, and TRICARE)

Carriers must cover a non-formulary contraceptive without cost-sharing upon the recommendation of the patient's health care provider. If the carrier, or pharmacy benefit management firm acting on behalf of a carrier, requires a written request for a non-formulary contraceptive, the provider must complete this form and send it to the patient's health benefit plan to obtain coverage of a contraceptive that is not on the plan's prescription drug formulary, but is determined to be medically necessary for the patient by the provider.
