

Important notice for Aetna® members: Lower copays for certain prescription drugs

Starting July 1, 2025, Massachusetts passed a law where you can get certain prescription drugs at a lower cost, if you have a chronic condition including asthma, diabetes and two specific heart problems. These lower costs will last through 2026 and will be updated annually thereafter.

For any questions or further assistance, you can call Member Services using the number on the back of your ID card.
