- **Medicare Part D – Prescriber NPI Requirements**

### Prescriber Identification Requirements

**Effective January 1, 2013, identification of the Prescriber requires a valid and active National Provider Identifier (NPI).** Per CMS, all Medicare Part D claims, including controlled substance prescriptions, must be submitted with the Prescriber’s valid and active NPI. It is not acceptable, at any time, to utilize an invalid or inactive NPI which does not represent a Prescriber. For pharmacies, it is imperative that the NPI of the Prescriber is checked and verified instead of simply selecting the first number that appears during the Prescriber search.

### Claims Submission

There must be a valid and active individual NPI number submitted with each claim. Otherwise, a claim will reject for Invalid Prescriber. An accurate Submission Clarification Code (NCPDP Field # 420-DK) may be submitted to allow a rejected claim to pay.

- **Claims submitted and reimbursed by Aetna without a valid and active NPI will result in audit review and chargeback**
- Provider must maintain the DEA number on the original hard copy for all controlled substances prescriptions in accordance with State and Federal laws
- For unresolved rejects, Aetna is required by CMS to contact pharmacies within 24 hours of the reject
- The requirement also applies to foreign Prescribers
- Upon submission of an SCC code, the pharmacy is CONFIRMING the validity of that Prescriber to prescribe the drug
- If calling to request a Prior Authorization, the pharmacy understands that the Prescriber Identifier is considered invalid and will be subject to retrospective audit and possible chargeback

**PHARMACY STEPS:**

**In the event a claim rejects for prescriber ID, please review the following steps:**

- **Verify the ID submitted is a Type 1 NPI.**
- **For controlled drugs, confirm the Prescriber has a valid DEA and is authorized to prescribe that particular class of drugs**

**Please note: Only certain SCC codes will be allowed to override each reject code, please see below to help determine valid SCC codes for each reject.**

Reject Code	Field #	Code Value	Description
A2,42, 56	42Ø-DK Submission Clarification Code	42	The Prescriber ID submitted has been validated, is active
43, 44	42Ø-DK Submission Clarification Code	43, 45	For the Prescriber ID submitted, associated prescriber DEA Renewed, or In Progress, DEA Authorized Prescriptive Rights. For the Prescriber ID submitted, associated DEA is a valid Hospital DEA with Suffix
46	42Ø-DK Submission Clarification Code	46	For the Prescriber ID submitted and associated prescriber DEA, the DEA has authorized prescriptive rights for this drug DEA Class
619	42Ø-DK Submission Clarification Code	42, 49	The Prescriber ID submitted has been validated, is active. Prescriber does not currently have an active Type 1 NPI.

## APPENDIX C: COORDINATION OF BENEFITS (COB)

- **Medicare Part D – Submission Requirements for COB**

For all other primary Medicare Part D plan sponsors that have not implemented Single Transaction Coordination of Benefits (ST COB), the following coordination of benefits information is essential when submitting claims for Medicare Part D Eligible Person:

- If Medicare Part D is the primary coverage, the standard BIN/RXPCN combinations should be used (refer to the Aetna plan sponsor grid distributed annually in December)
- For supplemental coverage **after** the primary Medicare Part D claim is processed, please use the following BIN/RXPCN combinations:

BIN	Processor Control Number (PCN)	Other Coverage Code
610502	MEDDAET	Ø3, Ø8
610502	PARTBAET	Ø3, Ø8

**Note:** Claims submitted with the above BIN/PCN combinations must be routed through the TrOOP Facilitator (Relay Health)—do not use lines that are directly connected to Aetna.

Aetna will respond back to the pharmacy in the message text fields indicating any other coverage that may apply to Medicare Part D members. Please ensure that pharmacy employees can easily read this information so that supplemental claims can be submitted according to the message instructions.

Only one Medicare Part D claim transaction is allowed per transmission.

- **Single Transaction COB (STCOB)**

**Medicare Part D Single Transaction Coordination of Benefits**

Aetna has the ability to utilize a Single Transaction Coordination of Benefits (ST COB) process whereby the pharmacy provider sends one transaction to Aetna and, the claim adjudicates against both primary and secondary plans before returning one final response to the pharmacy provider with the message “Single Transaction COB Processed Used”. This type of COB is for certain Medicare Part D Plan Sponsors whose plan design resides predominantly on BIN 610502, and whose benefit is comprised of a group of Eligible Person’s that have a Med D Plan where the primary and secondary benefit are coordinated for the Eligible Person.
